MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Landscaping Standards

1. This memorandum establishes standards for landscaping within the cantonment area of Camp Roberts. The intent is an attractive, natural looking, low-maintenance landscaping scheme that complements the installation's master plan. Landscaping projects will obtain prior approval of the Department of Public Works (in the form of a job number or work number) and the Environmental Office (in the form of a plan review).
2. Standards.
 - a. Vegetation will be California native plants or trees that are perennial and drought resistant. The intent is to limit turf grass to the athletic field area, while increasing the number of native plants and trees elsewhere. Contact the Camp Roberts Beautification Committee (CAGNET 68332) for planting recommendations.
 - b. The common groundcover will be gravel (1"), permabark (light colored) or decorative rock.
3. Painted Rocks. Camp Roberts will locate a series of concrete blocks along California Boulevard at the athletic field (2-3 inches of rock with a no-growth fabric underneath). Units may petition the post commander for permission to paint their unit insignia on these painted rocks.
4. My telephone number is 805-238-8201.

JOHN F. SMITH
COL, FA
Commanding
